

The Central Salt & Marine Chemicals Research Institute, Bhavnagar, has published 2 volumes of the Monograph entitled “Recent advances on applied aspects of Indian Marine Algae with reference to Global Scenario”. The scanned copy of the cover page and table of contents for these volumes are given below. These volumes are printed on glossy art paper and majority of the figures are in 4 colours. The price for both the volumes are Rs. 2,300=00 or Rs. 1,500=00 for any one of the volume (Indian Rupee). Persons from other countries have to pay 500 US \$ for both the volume or 350 US \$ for any one of the volume. In addition to this the buyer also has to pay Rs. 150=00 in Indian currency or US \$ 10 for Sea Mail/ Surface Mail or US \$ 20 by Air Mail towards the charges of packing and forwarding. The charges for packing and forwarding will remain same for purchase of single volume. The volumes will be send by registered post parcel. Ten percent reduction in selling price will be given to Indian students and other students of developing and underdeveloped countries. However, in such case the student has to produce certificate from the Director of the Institute or Head of the Department of residential University or Principal of the affiliated College. The cost of the monograph and postage charges have to be paid in advance by crossed Demand Draft in favour of “The DIRECTOR, Central Salt & Marine Chemicals Research Institute”, payable at the State Bank of India, Diwanpara Branch, Bhavnagar, (Gujarat State) INDIA.

The Demand Draft may be send to Dr. A. S. Mehta, Head BDIM, Central Salt & Marine Chemicals Research Institute, Bhavnagar – 364 002, Gujarat (INDIA). Dr. A. S. Mehta (email address [asmehta@csmcri.org](mailto:asmehta@csmcri.org)) may also be contacted if any one needs proforma invoice to arrange the payment.

Volume-1

Recent Advances on  
Applied Aspects of  
**Indian Marine Algae**  
with Reference to Global Scenario

---

Seaweed Taxonomic Identification,  
Aquaculture, Resource, Environment,  
Fouling and Disease

---

Edited by  
A. Tewari

Central Salt and Marine Chemicals Research Institute

Key to the taxonomic identification of green and brown marine algae of India V. Krishnamurthy	1
Key to the identification of Indian red seaweeds M. Umamaheswara Rao	46
Endangered and extinct seaweeds of Indian shore M. Umamaheshwara Rao and B.B. Chaugule	141
Standing stock of seaweeds on Indian coast K. Subbaramaiah, S. H. Zaidi and V. D. Chauhan	147
Seaweed landing in India N. Kaliaperumal	174
Technology and biological aspect on the cultivation of edible seaweed in Japan Masao Ohno	185
Cultivation of seaweeds in Southeast Asia; with special reference to the <i>Eucheuma</i> seaplants Iain C. Neish	204
Field cultivation of <i>Kappaphycus alvarezii</i> in India K. Eswaran, P.K.Ghosh, P.V.Subba Rao and O.P.Mairh	250
Environmental impact assessment of <i>Kappaphycus</i> cultivation in India in context to global scenario A.Tewari	262
Prospects of mariculture of <i>Hypnea</i> species in India K.Rama Rao and M.Ganesan	288
Field cultivation of <i>Gelidiella acerosa</i> in India P.V.Subba Rao and M.Ganesan	296
Culture of <i>Gracilaria edulis</i> and other seaweeds in India N. Kaliaperumal	304
Mass culture of <i>Spirulina</i> ( <i>Arthospira</i> ) for human nutrition and aquaculture industry N. Jeeji Bai	319
Micro algae culture as live feed C.P.Gopinathan and R. Gireesh	341
Role of diatoms in marine biofouling Arga Chandrashekar Anil, Jagadish S Patil, Smita Mitbavkar, Priya M D'Costa, Shamina D'Silva, Sahana Hegde and Ravidas Naik	351
Algal-fungal interactions in the marine ecosystem: symbiosis to parasitism Chandralata Raghukumar	366

# Recent Advances on Applied Aspects of **Indian Marine Algae** with References to Global Scenario

Volume-2

Application and Utilization, Food and Feed,  
Biotechnology, Chemistry,  
Drugs and Bioactive Substances

Edited by  
A. Tewari

Bhavnagar 364 002, Gujarat

# Content

	<i>Page</i>
Remote Sensing for Marine Algae Shailesh Nayak, Mini Raman and Anjali Bahuguna	1
Preservation and Storage of Seaweeds for Industrial Utilization Akhilesh Tewari and Kalpana Mody	21
Standards and Reference Materials for Marine Algae C.S.P. Iyer and S. Maya	39
Microalgae – A Potent Source of Biotechnological Products L. Uma, D. Prabakaran and G. Subramanian	52
Food, Nutritional and Nutraceutical Quality of Marine Macroalgae Akhilesh Tewari and Yasmin Khambhaty	87
Secondary Metabolites of Marine Algae of the Indian Coast – Developments and Prospects Nittala S Sarma, M Sri Rama Krishna and Sk G Pasha	115
Marine Algal Biomarkers Sk. G. Pasha, M. Sri Rama Krishna, M. Rama Reddy and Nittala S. Sarma	141
Agar and Value Addition of Indian Agarophytes Ramavatar Meena and A K Siddhanta	172
Carrageenans from Indian Marine Algae Yasmin Khambhaty, Kalpana Mody and R G Parekh	185
Seaweeds: An Effective Alternative Source as a Biofertilizer Jinalal S.Patolia, Sudhakar T. Zodape, Mukesh T. Shah and Mahesh R. Rajyaguru	200
Blood Anticoagulants from Marine Algae Kalpana Mody	220
Seaweed Polysaccharides, their Bioactivity and Value Addition – The Indian Perspective A K Siddhanta, Ramavatar Meena, Kamalash Prasad and A Sai Krishna Murthy	229
Seaweed Hemagglutinins L.Kannan and N.Mangaiyarkarasi	244
Carotenoids from <i>Dunaliella</i> - A Journey from Test-Tube to Customer Kotamballi N.Chidambara Murthy and Gokare A. Ravishankar	252
Phycobiliproteins from Microalgae Sandhya Mishra	271
Biosensors with Cyanobacteria and Algae Ioan I. Ardelean	285
